## Dear Parents

While we relish this time with our kids, remember that these are the moments that they will treasure forever. Let every moment of this vacation be a time to unite, connect, enjoy and be a period filled with relaxation, exploration and the opportunity to create lasting memories with your loved ones.

We encourage our students to make the most of their vacation by embracing curiosity, creativity and self-discovery. Having this mindset, we have designed a bunch of productive and fun filled activities. It is essential to channelize the energy of our little munchkins in the right direction with a holistic approach. This will foster inquisitiveness, give wings to their imaginations and instill the joy of learning among them. The major emphasis is laid on interdisciplinary education, involving combining different academic disciplines to provide a holistic approach to learning..

Join us as we dive into the joyous realm of summer escapades, where memories are made under the Sun and laughter echoes while having fun...

Enjoy Your Holidays!

See you on 1<sup>st</sup> July, 2024
